# Release of Confidential Information to IUPUI Fellowship Committee

Indiana University-Purdue University Indianapolis (IUPUI) has available each year a number of fellowships for graduate students in their first year at IUPUI. These fellowships are awarded on a competitive basis to full-time students in any school or department. Awards are made by the Fellowship Committee, a subcommittee of the Graduate Affairs Committee, to students who show the most evidence of potential success in their graduate study at IUPUI.

To be nominated for a fellowship, the Committee requires a copy of your application for admission, including your transcripts, recommendations, and test scores. In compliance with the Family Education Rights & Privacy Act of 1974, we ask that you sign the statement below authorizing us to release your application materials to the Fellowship Committee.

I hereby \_\_\_\_\_ (do) \_\_\_\_\_ (do not) authorize release of information contained in my application for admission to IUPUI to the IUPUI Fellowship Committee for the purpose of evaluating my nomination for any IUPUI Graduate Fellowship.
